Subject index

Volume 179 (1996)

American oyster (*Crassostrea virginica*); Marine environment; Organic contaminants; Galveston Bay, Texas; Bioaccumulation; Biomonitoring **179**, 149

Anthropogenic metals; Pollution; Southern California Bight; Sediments; Sewage **179**, 47

Aquatic environment; DDT; St. Lawrence River, Canada; Great Lakes Basin, Canada **179**, 17

Benthic invertebrate species; Contaminant dispersion; Biodiffusion coefficient; Sea bed mixing; Bioturbation; Palos Verdes continental margin **179**, 91

Bioaccumulation; Marine environment; American oyster (*Crassostrea virginica*); Organic contaminants; Galveston Bay, Texas; Biomonitoring **179**, 149

Biodiffusion coefficient; Contaminant dispersion; Sea bed mixing; Bioturbation; Benthic invertebrate species; Palos Verdes continental margin **179**, 91

Biomonitoring; Marine environment; American oyster (*Crassostrea virginica*); Organic contaminants; Galveston Bay, Texas; Bioaccumulation **179**, 149

Bioturbation; Contaminant dispersion; Biodiffusion coefficient; Sea bed mixing; Benthic invertebrate species; Palos Verdes continental margin **179**, 91

Bioturbators; Marine environment; Palos Verdes shelf, California; Wastewater; DDT; *p,p*′-DDE; PCBs; Marine sediment contamination **179**, 73

Burlington, Canada; Natural tracers; Coprostanol; Contaminated sediments; Nitrogen isotope ratios; Carbon isotope ratios; Sewage treatment plant **179**, 3

Carbon isotope ratios; Natural tracers; Coprostanol; Contaminated sediments; Nitrogen isotope ratios; Sewage treatment plant; Burlington, Canada **179**, 3

Contaminant dispersal; Marine environment; DDT; *p,p'*;-DDE; Palos Verdes shelf, California; Shelf sediment dynamics; Resuspension Model; Contaminant Release Model **179**, 109

Contaminant dispersion; Biodiffusion coefficient; Sea bed mixing; Bioturbation; Benthic invertebrate species; Palos Verdes continental margin **179**, 91

Contaminant Release Model; Marine environment; Contaminant dispersal; DDT; *p,p*′-DDE; Palos Verdes shelf, California; Shelf sediment dynamics; Resuspension Model **179**, 109

Contaminant transport, modelling; Tidal modelling; Lunenburg Bay, Nova Scotia **179**, 161

Contaminated sediments; Natural tracers; Coprostanol; Nitrogen isotope ratios; Carbon isotope ratios; Sewage treatment plant; Burlington, Canada **179**, 3

Coprostanol; Natural tracers; Contaminated sediments; Nitrogen isotope ratios; Carbon isotope ratios; Sewage treatment plant; Burlington, Canada **179**, 3

DDT; Aquatic environment; St. Lawrence River, Canada; Great Lakes Basin, Canada **179**, 17

DDT; Marine environment; Contaminant dispersal; *p,p*′DDE; Palos Verdes shelf, California; Shelf sediment dynamics; Resuspension Model; Contaminant Release Model **179**, 109

DDT; Marine environment; Palos Verdes shelf, California; Wastewater; *p,p*′-DDE; PCBs; Bioturbators; Marine sediment contamination **179**, 73

DDT; Polynuclear aromatic hydrocarbons (PAH); Polychlorinated biphenyl congeners (PCB); Tributyltin (TBT); *Mytilus edulis*; Hudson-Raritan Estuary, New York; Long Island Sound, New York **179**, 135

DDT wastes, ocean disposal; Santa Monica Basin, California; Dumpsites **179**, 61

Dumpsites; DDT wastes, ocean disposal; Santa Monica Basin, California **179**, 61

Estuarine waters; Sediment retention; Metal retention; Subtidal environment; Salt marsh; Narragansett Bay, Rhode island **179**, 27

Galveston Bay, Texas; Marine environment; American oyster (*Crassostrea virginica*); Organic contaminants; Bioaccumulation; Biomonitoring **179**, 149

Great Lakes Basin, Canada; DDT; Aquatic environment; St. Lawrence River, Canada **179**, 17

Hudson-Raritan Estuary, New York; Polynuclear aromatic hydrocarbons (PAH); Polychlorinated biphenyl congeners (PCB); DDT; Tributyltin (TBT); *Mytilus edulis*; Long Island Sound, New York **179**, 135

Long Island Sound, New York; Polynuclear aromatic hydrocarbons (PAH); Polychlorinated biphenyl congeners (PCB); DDT; Tributyltin (TBT); *Mytilus edulis*; Hudson-Raritan Estuary, New York **179**, 135

Lunenburg Bay, Nova Scotia; Contaminant transport, modelling; Tidal modelling **179**, 161

Marine environment; American oyster (*Crassostrea virginica*); Organic contaminants; Galveston Bay, Texas; Bioaccumulation; Biomonitoring **179**, 149

Marine environment; Contaminant dispersal; DDT; *p,p*′-DDE; Palos Verdes shelf, California; Shelf sediment dynamics; Resuspension Model; Contaminant Release Model **179**, 109

Marine environment; Palos Verdes shelf, California; Wastewater; DDT; *p,p*′-DDE; PCBs; Bioturbators; Marine sediment contamination **179**, 73

Marine sediment contamination; Marine environment; Palos Verdes shelf, California; Wastewater; DDT; *p,p*′-DDE; PCBs; Bioturbators **179**, 73

Metal retention; Estuarine waters; Sediment retention; Subtidal environment; Salt marsh; Narragansett Bay, Rhode island **179**, 27

Mytilus edulis; Polynuclear aromatic hydrocarbons (PAH); Polychlorinated biphenyl congeners (PCB); DDT; Tributyltin (TBT); Hudson-Raritan Estuary, New York; Long Island Sound, New York **179**, 135

Narragansett Bay, Rhode island; Estuarine waters; Sediment retention; Metal retention; Subtidal environment; Salt marsh **179**, 27

Natural tracers; Coprostanol; Contaminated sediments; Nitrogen isotope ratios; Carbon isotope ratios; Sewage treatment plant; Burlington, Canada **179**, 3

Nitrogen isotope ratios; Natural tracers; Coprostanol; Contaminated sediments; Carbon isotope ratios; Sewage treatment plant; Burlington, Canada **179**, 3

Organic contaminants; Marine environment; American oyster (*Crassostrea virginica*); Galveston Bay, Texas; Bioaccumulation; Biomonitoring **179**, 149

***p,p*′-DDE**; Marine environment; Contaminant dispersal; DDT; Palos Verdes shelf, California; Shelf sediment dynamics; Resuspension Model; Contaminant Release Model **179**, 109

***p,p*′-DDE**; Marine environment; Palos Verdes shelf, California; Wastewater; DDT; PCBs; Bioturbators; Marine sediment contamination **179**, 73

Palos Verdes continental margin; Contaminant dispersion; Biodiffusion coefficient; Sea bed mixing; Bioturbation; Benthic invertebrate species **179**, 91

Palos Verdes shelf, California; Marine environment; Contaminant dispersal; DDT; *p,p*′-DDE; Shelf sediment dynamics; Resuspension Model; Contaminant Release Model **179**, 109

Palos Verdes shelf, California; Marine environment; Wastewater; DDT; *p,p*′-DDE; PCBs; Bioturbators; Marine sediment contamination **179**, 73

PCBs; Marine environment; Palos Verdes shelf, California; Wastewater; DDT; *p,p*′-DDE; Bioturbators; Marine sediment contamination **179**, 73

Pollution; Anthropogenic metals; Southern California Bight; Sediments; Sewage **179**, 47

Polychlorinated biphenyl congeners (PCB); Polynuclear aromatic hydrocarbons (PAH); DDT; Tributyltin (TBT); *Mytilus edulis*; Hudson-Raritan Estuary, New York; Long Island Sound, New York **179**, 135

Polynuclear aromatic hydrocarbons (PAH); Polychlorinated biphenyl congeners (PCB); DDT; Tributyltin (TBT); *Mytilus edulis*; Hudson-Raritan Estuary, New York; Long Island Sound, New York **179**, 135

Resuspension Model; Marine environment; Contaminant dispersal; DDT; *p,p*′-DDE; Palos Verdes shelf, California; Shelf sediment dynamics; Contaminant Release Model **179**, 109

Salt marsh; Estuarine waters; Sediment retention; Metal retention; Subtidal environment; Narragansett Bay, Rhode island **179**, 27

Santa Monica Basin, California; DDT wastes, ocean disposal; Dumpsites **179**, 61

Sea bed mixing; Contaminant dispersion; Biodiffusion coefficient; Bioturbation; Benthic invertebrate species; Palos Verdes continental margin **179**, 91

Sediment retention; Estuarine waters; Metal retention; Subtidal environment; Salt marsh; Narragansett Bay, Rhode island **179**, 27

Sediments; Anthropogenic metals; Pollution; Southern California Bight; Sewage **179**, 47

Sewage; Anthropogenic metals; Pollution; Southern California Bight; Sediments **179**, 47

Sewage treatment plant; Natural tracers; Coprostanol; Contaminated sediments; Nitrogen isotope ratios; Carbon isotope ratios; Burlington, Canada **179**, 3

Shelf sediment dynamics; Marine environment; Contaminant dispersal; DDT; *p,p*′-DDE; Palos Verdes shelf, California; Resuspension Model; Contaminant Release Model **179**, 109

Southern California Bight; Anthropogenic metals; Pollution; Sediments; Sewage **179**, 47

St. Lawrence River, Canada; DDT; Aquatic environment; Great Lakes Basin, Canada **179**, 17

Subtidal environment; Estuarine waters; Sediment retention; Metal retention; Salt marsh; Narragansett Bay, Rhode island **179**, 27

Tidal modelling; Contaminant transport, modelling; Lunenburg Bay, Nova Scotia **179**, 161

Tributyltin (TBT); Polynuclear aromatic hydrocarbons (PAH); Polychlorinated biphenyl congeners (PCB); DDT; *Mytilus edulis*; Hudson-Raritan Estuary, New York; Long Island Sound, New York **179**, 135

Wastewater; Marine environment; Palos Verdes shelf, California; DDT; *p,p*′-DDE; PCBs; Bioturbators; Marine sediment contamination **179**, 73
